<sup>1</sup> Models marked with "Native Driver" can support special camera features like e.g. PTZ commands and/or I/O contacts. The supported features for a certain model are marked in the list in the corresponding column. Other listed manufacturers and camera models without "Native Driver" identification can be integrated via the common CamIQ RTSP driver.

<sup>2</sup> rosemann software GmbH tested all indicated models with the listed firmware version if these entries are indicated as tested by "RS" (rosemann software). All other entries marked with "CF" (Customer Feedback) are results from our customer feedback in the field.
